SR-B-101-Part VIII Southern Division January 14, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—SOUTHERN REGION

BULLETIN 101—PART VIII

Range Conservation Program for 1937

Southern Region Bulletin 101¹ is hereby supplemented by adding thereto the following Part VIII:

The provisions of this Part VIII of Southern Region Bulletin 101 shall apply only with respect to range lands in the western range area of Texas and Oklahoma as designated by the State Agricultural Conservation Committees, respectively, and approved by the Agricultural Adjustment Administration.

SECTION 81. Definitions.—As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in its application to range land in designated areas of Texas and Oklahoma, the following terms shall have the meanings indicated below:

Range Land means any land which produces forage without cultivation or general irrigation and which is used for the pasturage of range livestock.

Ranch means all range land, other than that owned or controlled by the United States Government or any agency thereof, in which an operator has such a legal estate or interest as to give him control thereof for the duration of the 1937 Agricultural Conservation Program, which is used by the operator in 1937 as a single unit in producing range livestock.

Range Livestock means beef cattle, sheep, goats, or horses grazed on range land.

Animal Unit means the unit of measurement of the number of livestock in terms of 1 cow, 1 horse, 5 sheep, 5 goats, or the equivalent thereof.

Range-Building Allowance for any ranch means the largest amount of money that may be earned for carrying out range-building practices on such ranch.

Grazing Capacity of a ranch means that number of animal units which the range land thereon will sustain (on a 12-months basis) over a period of years without decreasing the stand of grazing vegetation and without injury to the forage, tree growth, or watershed.

Deferred grazing means withholding from grazing a portion of the ranch during the period from the time range vegetation starts growth in the spring until seed has matured in the fall for the purpose of permitting the reseeding of the range land.

Ranch operator means a person who as owner or lessee (either cash or share) operates a ranch in 1937.

County range inspector (hereinafter referred to as range inspector) means a person selected by the county committee and approved by the State committee for the purpose of reporting on range conditions and the checking of performance.

Other definitions.—See Part I of SR-B-101.

SECTION 82. Grazing Capacity.—For each ranch for which an "Application for Determination of Grazing Capacity", Form SR. 151, has been received, the range inspector will submit a report to the county committee on Form SR. 152,

¹2 F. R. 10.

"Report of Examination of Range Land", upon which said committee shall recommend to the State committee, for approval by the Secretary, the grazing capacity of the ranch. The range inspector who examines the ranch and makes a report thereon will take into consideration the following:

(1) History of use; (2) composition, palatability and density of vegetative growth; (3) climatic fluctuations; (4) distribution and character of watering facilities; (5) topographic and cultural features; (6) classes of livestock; (7) presence or absence of rodents; and (8) poisonous plant infestation.

SECTION 83. Grazing Capacity Limit.—There shall be established by the Agricultural Adjustment Administration in each county the average grazing capacity of the ranches therein. The average of the individual grazing capacities established for the ranches in any county shall not exceed the county average grazing capacity limit for such county unless a variation therefrom is recommended by the State committee and approved by the Administrator of the Agricultural Adjustment Administration.

SECTION 84. Range-Building Allowance.—The range-building allowance for any ranch shall be determined by multiplying \$1.50 by the grazing capacity.

SECTION 85. Range-Building Practices.—Payments will be made not in excess of the range-building allowance for the carrying out of the following range-building practices on a ranch in 1937 at the rates and upon conditions as set forth below:

Practice Number, Practices and Conditions, and Rate

51. *Reseeding by deferred grazing.*—For withholding twenty-five percent (25%) of the ranch from grazing for a period of 6 months, beginning May 1, 1937. (If grazing is deferred on less than twenty-five percent (25%) of the ranch a proportionate payment will be made) payment will not be made for this practice if the operator permits the remainder of the range land on the ranch to be overgrazed to an extent that causes deterioration of such range land: One-third ($\frac{1}{3}$) of the range-building allowance.

52. *Contour listing or furrowing.*—For contour listing or furrowing in 1937, furrow channels to be not less than 8 inches in width and 4 inches in depth and not less than $3\frac{1}{2}$ feet apart (payment will be made on the acreage occupied by the furrows computed on the basis of $3\frac{1}{2}$ feet in width for each such furrow): \$.70 per acre.

53. *Ridging range land.*—For narrow terraces or ridges, on slopes of two percent (2%) or greater, that are at least 6 feet wide from bottom of furrow to bottom of furrow on the opposite side, at least 10 inches in height and on the contour level, at an interval which is specified by the State Agricultural Conservation Committee for the slope: \$.10 per 100 linear feet.

54. *Spreader dams.*—If in combination with spreader terraces, spreader dams to be constructed in accordance with specifications of the State Agricultural Committee (payment will be made for material moved in building the dam): \$.15 per cubic yard.

55. *Spreader terraces.*—If in combination with spreader dams, terraces to be constructed in accordance with specifications of the State Agricultural Committee: \$.40 per 100 linear feet.

56. *Earthen tanks and reservoirs.*—For constructing ponds or reservoirs with adequate spillways (payment will be made for material excavated and material used for fill not excavated on the site of the tank or reservoir): \$.15 per cubic yard.

57. *Range fences.*—For the construction of range fences, where necessary in order to carry out other phases of the 1937 Range Conservation Program (payment will be made for fence when constructed of three or more wires, with posts not more than 20 feet apart, with corner posts well braced and with wires tightly stretched): \$.30 per rod.

58. *Fire guards.*—For the establishment of fire guards, not less than 4 feet in width, by plowing furrows or otherwise exposing the mineral soil: \$.03 per 100 linear feet.

59. *Rodent eradication.*—(a) For the eradication of prairie dogs. (b) For the eradication of kangaroo rats. Rate: \$.07 $\frac{1}{2}$ per infested acre, \$.05 per infested acre.

60. *Rescuing range land from prickly pear and cactus.*—(a) Light infestation.

(b) Medium infestation.

(c) Heavy infestation. Rate: \$.50 per acre, \$.75 per acre, \$1.00 per acre.

61. *Rescuing range land from mesquite.*—(a) Light infestation.

(b) Medium infestation.

(c) Heavy infestation. Rate: \$.50 per acre, \$1.00 per acre, \$2.00 per acre.

*The degree of infestation of range-destroying plants, and rodents on range land, shall be determined by the county committee based upon the report of the range inspector.

62. *Rescuing range land from cedar.*—(a) Light infestation.

(b) Medium infestation.

(c) Heavy infestation. Rate: \$.75 per acre, \$1.00 per acre, \$1.50 per acre.

63. *Rescuing range land from lechuguilla.*—For heavy infestation: \$.50 per acre.

SECTION 86. General Conditions for Range-Building Payments.—(a) No payment will be made for any range-building practice unless the county committee, upon the basis of an examination of the ranch by the range inspector, as requested by the ranch operator, has determined that such practice is in accordance with specifications issued by the State Agricultural Conservation Committee and that such practice will tend to effectuate the purposes of the Act and has given written approval thereof at the time of such determination.

(b) No payment will be made for carrying out range-building practices in 1937 on any ranch unless they are carried out according to the generally accepted standards of good ranching, and in case such practices require materials, no payment shall be made unless such materials are of the kinds and qualities customarily used.

(c) No payment will be made with respect to performance for which the labor or materials are furnished by any Federal or State agency.

SECTION 87. Applications for Payments.—(a) Payments will be made only upon applications filed on or before a date established by the State committee with the approval of the Director of the Southern Division. Each application for payment shall be filed with the county committee of the county in which the ranch (or the major portion thereof) is located.

(b) An application for payment may be made only by the ranch operator(s).

(c) Each application for payment shall include all land in the ranch within the meaning of that term as defined in Section 81.

(d) Payment under the application will be made only to a ranch operator, or to each ranch operator of a group of two or more such operators, provided that each signifies in the application for payment the percentum of the total payment under the application for payment due him.

SECTION 88. Owner and Lessee Relationship.—No payment will be made to any owner who has for 1937 made any change from the 1936 leasing agreements of such land for the purpose of, or which would have the effect of, diverting to such owner any payment to which any lessee would be entitled if the 1936 leasing arrangement were in effect for 1937.

SECTION 89. Appeals.—Any ranch operator who has reason to believe that any recommendation of his county committee concerning his ranch is not correct or equitable may request the county committee to reconsider its recommendation. If such operator fails to agree with the final recommendation of the county committee, such operator may appeal to the State Committee in accordance with instructions to be issued by the Secretary.

SECTION 90. Deductions for Expenses.—There shall be deducted pro rata from the payment to any person with respect to a ranch or ranches all or such part as the Secretary shall prescribe, of the estimated administrative expenses incurred and to be incurred in the field in carrying out the 1937 program.

SECTION 91. Inapplicable Deductions.—Deductions for increasing the acreage of soil-depleting crops and for failure to have a sufficient acreage of soil-conserving crops shall not be applicable to payments for the range-building practices specified in this Part VIII.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 14th day of January 1937.
